

Hinkel-Kogut Company produces natural sausage casing within 10 years of its history on Ukrainian market. Our Company supplies wide range of casings to Ukrainian and EU meat processors. Hinkel-Kogut has started operation in December 2001 and still continues the development and improvement of its production. We supply to our own production raw material from leading European and Global meat-preparing factories. We do calibration and reprocessing of raw casings. Hinkel-Kogut company has the official certified right to export its products to EU countries (UA 13-03-01).

Natural casings are known to be the best raw material in processing meat. According to the experts' polls of consumers, most of them consider sausages in the natural casings as most ecologically pure and original products.

We offer hog and beef casings in multiple callibers, as well as hog, beef caps and middles 'easy filled'. Our products are of best quality only, approved with various certificates. Our quality control department constantly follows strict policies of products' callibration, metration and bunches amount compliance. We have ultimate conservation conditions

We are proud members of INSCA for many years, and we have established fruitful cooperation with many EU companies and the enterprises overseas.

Hinkel-Kogut works with the reliable suppliers providing strong and continious quality to the end-market.

Welcome to our web-site! In case you are looking for the best partner in Eastern Europe, you are at the right place.
